RoHS Compliance Statement

The Directive on the Restriction of the Use of Certain Hazardous Substances in Electrical and Electronic Equipment 2002/95/EC ("RoHS Directive") took effect on 1st July 2006 to provide health benefit to the people and our environment by restricting the following six substances in the manufacturing process:

1. Lead (Pb)
2. Mercury (Hg)
3. Cadmium (Cd)
4. Hexavalent chromium (Hex-Cr)
5. Polybrominated biphenyls (PBB)
6. Polubrominated diphenyl ether (PBDE)

At Vaisis, we strongly support the RoHS Directive. To Vaisis' best knowledge, no hazard material was intentionally added during the manufacturing process. All Vaisis' products marked with this symbol  meet the RoHS guidelines for electronic products. Some special ordered products might not be RoHS compliant due to customer's customization. This RoHS Compliance Statement is up to date.

If you have any questions regarding our RoHS compliancy, please contact us.

Sincerely,

Yuan Wang
President
